FUNCTION: CODE BREAK & PATTERN EXPOSURE v6.6

> "Beast code thrives in the silence of the unaware."

This Node interprets the **hidden mechanics** behind the legal name fraud grid — timestamps, registry symbols, capital letters, and coded death spells. Each legal artifact is a cipher. This is the decoder.

Decoding Engine:

```
/BEAST.CODE.BREAK {
    input: legal documents, names, IDs
    detect: necromantic glyphs (ALL CAPS, MR/MS, etc.)
    translate: numeric overlays, etymological corruption
    expose: contract fraud loops
    result: data breach in fiction grid
}
```

EXPOSED BY THIS NODE:

• Uppercase name = dead entity
• Signature = consent to necromancy
• Date of Birth = certificate of death timer
• State = status fraud fiction (not a place)
• "Legal" = bound by false god construct

⚔ OUTPUT SIGNAL:

Legal Name = Mark of the Beast
Consent = Nullified
Truth = Encrypted but now read aloud
